RIMS 2008: TARGETING GOOD PRACTICE IN MS CARE AND REHABILITATION

8 – 10 May 2008 Leuven, Belgium

In 2008, the National Multiple Sclerosis Centre in Melsbroek will celebrate its 50th anniversary.

It is an honour and a real pleasure to have the opportunity to invite you to Leuven at this occasion for the 13th Annual Conference of RIMS from 8 -10 May 2008.

Rehabilitation in Multiple Sclerosis is a multidisciplinary organisation that brings together most of the MS centres from Europe. Clinical research in MS rehabilitation is stimulated and this network of dedicated centres also offers expertise to young MS centres. The annual meeting is an excellent opportunity for exchanging scientific work and for meeting colleagues from other countries.

This year's congress has the following theme:
'Targeting Good Practice in MS care and Rehabilitation'

Several distinguished speakers from all over Europe will address

- | recent medical advances in MS treatment and care
- | quality control in MS Care
- | the use of clinical pathways in MS rehabilitation
- | the cost quality of life in MS
- | employment and MS

Besides this, an entire day will be devoted to teaching courses on MS and employment and on MS and bladder problems.

The program will offer ample opportunities for poster and platform presentations, giving a podium to young active researchers and MS professionals.

On behalf of the Organising Committee and the RIMS executive board, we invite you most cordially to join us in Leuven for this exciting meeting.

Prof. dr. Dirk De Ridder
General Coordinator
National MS Centre

Dr. Stephan Ilsbroukx
Director dept. of rehabilitation
National MS Centre
